Majify Ventures Limited – Corporate Profile

Legal Status: Private Limited Company by Shares
Country of Registration: Uganda

Overview:
Majify Ventures Limited (MV) is a Uganda-based advisory and professional communication firm delivering integrated business development advisory, professional translation, and strategic communication services. Founded by a group of senior consultants with extensive individual and collaborative experience across donor-funded, public, and private sector programmes in emerging markets, MV combines technical expertise with deep local knowledge to support complex, multi-stakeholder initiatives.

Operating within increasingly climate-affected and resource-constrained environments, MV recognises that sustainable economic growth, youth employment, and enterprise development must be aligned with climate resilience and green transition pathways. The firm integrates climate-smart thinking into advisory, communication, and capacity-building interventions to ensure that programmes are environmentally responsible, socially inclusive, and economically viable in the long term.

Core Services:

- Business development advisory, enterprise capacity building, and climate-smart business modelling
- Professional translation and language adaptation services, including localisation of climate and sustainability frameworks
- Strategic and inclusive communication for youth-, gender-, and climate-focused programmes
- Investment readiness and entrepreneurial ecosystem support, with emphasis on green finance and climate-resilient enterprises
- Advisory support for climate risk integration, ESG alignment, and sustainability strategy development

Sector Focus:

- Youth employment and workforce readiness in green and emerging climate-resilient sectors

- Entrepreneurship and SME development, including green enterprise incubation and circular economy models
- Education, skills, and livelihoods aligned to climate adaptation and mitigation opportunities
- Gender-responsive and inclusive development programmes, recognising the disproportionate impact of climate change on women and vulnerable groups
- Climate adaptation, resilience-building, and sustainable value chain development

Clients Served (Representative Assignments):
Majify Ventures and its founding consultants have delivered services for:

- Water For People
- Water Integrity Network
- National Geographic Society
- IOM (International Organization for Migration)
- Save the Children
- Infectious Disease Institute
- Ministry of Health, Uganda
- USAID

Core Strengths:

- Multidisciplinary team combining advisory, financial, and language expertise
- Access to native and fluent Ugandan language specialists
- Strong quality assurance and review processes
- Proven ability to manage multi-language, time-bound assignments across sectors

Geographic Focus:
Uganda, with capacity to support assignments across East Africa.
